

# 1000kWh energy storage system in Cape-Town

## Overview

Cape Town's BESS project, co-located at the Atlantis PV plant, is designed as a pilot to test energy storage integration within the city's power network. The combined solar PV and battery system will operate as a hybrid facility, providing enhanced energy efficiency and resilience. With over 20 years of lithium battery R&D expertise, Director Liu drives technological innovation at KRL Power. As the mastermind behind KRL's. With daily load-shedding hours increasing by 35% since 2022, Cape Town's energy storage initiative couldn't be timelier. The city's grid-scale battery system acts like a giant power bank, storing excess energy during off-peak hours and releasing it when demand spikes - imagine having a backup. The City of Cape Town is inviting potential tenderers to bid for its first utility-scale battery energy storage system (BESS) facility.
