

# Botswana invests in solar panels

## Overview

Botswana has today marked a historic milestone in its energy transformation journey with the groundbreaking ceremony and signing of the Power Purchase Agreement (PPA) for the 500MW Maun Solar Photovoltaic (PV) Plant and 500MWh Battery Energy Storage System (BESS), one of the most. Botswana has today marked a historic milestone in its energy transformation journey with the groundbreaking ceremony and signing of the Power Purchase Agreement (PPA) for the 500MW Maun Solar Photovoltaic (PV) Plant and 500MWh Battery Energy Storage System (BESS), one of the most. Botswana is emerging as a leading destination for renewable energy investment, thanks to its exceptional solar potential and supportive policy framework. With over 3,200 hours of sunshine annually, Botswana is one of the sunniest countries in the world, making it ideally placed to harness solar. Discover Botswana's growing solar energy sector, renewable energy policies, and investment opportunities in clean power generation. A pioneering achievement that sets the tone for what is possible in the renewable energy space. This project is just the beginning. In the past year, both government and private investors have announced significant investments in renewable. State-owned Botswana Power Corp.
