

Factory price battery storage in Spain

Overview

Local battery pack wholesale prices plummeted 30% since 2020, now averaging €150/kWh for 100kW systems. Spain's battery energy storage market is at a critical point. Despite being a leader in renewable energy deployment in Europe, the country has only 18 MW of standalone batteries installed, which is 300 times fewer batteries than in Great Britain. But how much should you actually pay per kWh?

We'll break down Spain's 2025 price war and reveal bulk. Clean Horizon's latest Spanish price forecast report for Semester 1, 2025, released in March, delivers essential updates reflecting the evolving energy market landscape and its implications for Battery Energy Storage Systems (BESS) in Spain. With soaring electricity prices hitting €0.30/kWh and new EU carbon reduction mandates, Spanish businesses face a critical window to capitalize on cost-effective energy storage solutions.
