

Huawei solar energy storage cabinet lithium battery energy storage module

Overview

The Huawei LUNA2000-5KW-C0 is a compact DC/DC power module and battery management system (BMS) designed as the central control unit for the LUNA2000 modular high-voltage home energy storage platform. Energy Storage System Products List covers all Smart String ESS products, including LUNA2000, STS-6000K, JUPITER-9000K, Management System and other accessories product series. Internal electrical isolation renders 0 voltage on ports, we've got you. Huawei says its new, all-in-one storage solution for residential PV comes in three versions with one, two, or three battery modules, offering 6. These modular systems stand out with smart features such as the Smart String architecture: an integrated energy optimizer in each battery module ensures that every module is charged and discharged. Designed for efficiency, safety, and flexibility, this modular energy storage solution helps homeowners and businesses make the most of their solar power — with seamless performance, quiet operation, and world-class reliability.
