

Movable solar street light with pole

Overview

During the day, photons strike the photovoltaic solar panel. Electrons are drawn from the photons where they are routed to DC power and stored in the battery. The Greenshine Smart Power technology prevents overcharging the battery. Sensors in the electrical components of the light determine when the sun has dropped below the horizon. This tells the. Temporary construction lights require less maintenance than traditional portable construction lights—an occasional cleaning to get obstructions off of the panels, battery replacements, but not much else. Traditional construction site lighting fixtures (High-Pressure Sodium typically) require more frequent replacements, one every 5 years. It's the p. Temporary job site lighting for construction sitesThe Mobile Solar Lighting Tower comes in a variety of configurations to meet your site lighting, temporary construction lighting or construction site lighting plans. Because these portable construction lights are powered by the sun, they run completely silent and create no vibration. Preventative maintenance is a non-issue for our temporary lighting solutions with only the batteries that need to be changed every 5-7 years for construction led lighting. We're known as a company committed to th. Temporary Job Site LED lightingThe National Renewable Energy Laboratory (NREL) discovered through research that if solar was a world-wide energy solution, solar adoption would significantly reduce sulfur dioxide, nitrous oxides, and health-harmful emissions, reducing pollution and degradation of land through drilling and fracking. The amount of Carbon Dioxide emitted by all the street lights in the US is equivalent to the annual emissions of 26 million vehicles. Pollution affects us in more ways than we immediately think. Temporary Site LightingOur portable solar light towers are constructed with mono-crystalline panels that are the most efficient on the market today (20% of total possible power), surpassing poly-crystalline (rated at 15% efficiency). Coupled with deep-cycle lead acid batteries rated to last 5-7 years, we've got some of the best portable light tower generators on the mar. Commercial...
