

Saint lucia commercial solar

Overview

In a significant move toward energy independence and climate resilience, Saint Lucia is preparing to launch its second industrial-scale solar project—a 10 MW photovoltaic installation paired with a 26 MWh lithium-ion battery energy storage system (BESS). In the picturesque island nation of St. Lucia, the sun-kissed landscapes and crystal-clear waters are not just a treat for the eyes; they also present a golden opportunity for businesses to harness the power of solar energy. With years of experience, we offer reliable, efficient solutions that save energy and reduce costs. EcoCarib was brought into the marketplace to help solve the Caribbean's problem of high energy costs and aid the region's transition to a more sustainable future. We improve energy access. How do you know if solar is right for you?

And with so many products on the market, how can you be sure which is best suited to your home or business?

WHY SWITCH TO SOLAR?

We offer mounting on various types of roof, as well as standalone PV systems, one year free maintenance and service, and free. Island Renewables Ltd is a locally owned solar energy company committed to transforming how Saint Lucia powers its homes and businesses.
