

The world s largest energy storage project landed in the netherlands

Overview

Dutch energy developer Lion Storage, backed by major international investors, has secured financial closure on the €350 million (C\$519M/US\$367M) project, named Project Mufasa. Located in the Westhaven of Amsterdam, the new battery installation—named Giraffe—is the largest in the city, with a power capacity of 10 MW and an energy storage capacity of 47 MWh. Amstelveen, December 1, 2025 — Vattenfall and GIGA Storage, supported by InfraVia Capital Partners, today announced a major partnership for Project Leopard, GIGA Storage's large-scale battery storage system (BESS) in the north of the Netherlands. Project Mufasa will feature Megapack 2 XL, Tesla's utility scale energy storage system. The batteries will be able to charge and discharge 1,400 MWh at 350 MW. This large-scale energy storage system was delivered by energy specialist Alfen as a complete turn-key solution, including civil works, electrical integration and automation, to ensure the highest performance and reliability. SemperPower is pleased to announce another important milestone.
